

de Bibliotheek

Libraries are more than just a house full of books these days. Societies are changing and so are the role and purpose of libraries.

These developments affect library buildings as well. Each design commission for a library is unique.

After all, every city, every library audience, community and purpose of a library is different.

In the lecture, Francine Houben will talk about her experience and vision regarding libraries and library buildings.

September 26, 2014 | 4:00 - 5:00 PM

Price: €3,5 (€2,5 members)
